

**Weather Tight and Tamper Evident...
ready to do the job!**

Announcing the Climate Fighter bag from Rapid Close®. Finally... a cost effective bag designed to take on the elements; rain, snow, slush, dirt and dust! No one can control the weather - at least not yet anyway. Items being delivered to home or business can now travel in a highly secure bag utilizing a strong adhesive closure built into a puncture resistant film with a Tamper Evident seal.

Uses for Rapid Close® Climate Fighter bags:

- Directories, Newspapers, Magazines, Catalogs, Courier Shipments / Mail, Coupons / Advertising Materials / Product Samples

User Benefits:

- A fast, secure and liquid resistant seal can be made in mere seconds - using a whole new method!
- Bags can be closed virtually anywhere with no special heat seal equipment or expensive mechanical systems.
- We offer 8 standard items in the Directory bag line with four items available with a die cut handle. Custom bag sizes are readily available using plain or printed films (Ask about Flexographic printing from 1-8 colors)
- Quality puncture resistant film is the only film we use for the Climate Fighter bag.
- STOP the damaging effects of rain, snow, heavy winds, dust/dirt and lawn sprinklers!
- Eliminate customer complaints, service callbacks/re-delivery costs and book replacement expense.
- Scheduled distribution dates can remain unaffected by the weather. Delivery directories on time with no added unplanned costs associated with re-scheduling distribution logistics.
- Rapid Close® bags are available on new staple pack header cards or in twist tie groupings (100 bags/grouping).
